Contents

| | |
|----------------------------------------------------------------------------------------------------------------|------------|
| <i>Series Introduction</i> | <i>iii</i> |
| <i>Preface</i> | <i>v</i> |
| <i>Acronyms</i> | <i>xi</i> |
| 1 Problems of Overload and Spark Protection Systems for High Power RF Generators, Lasers, and Radar | 1 |
| 1.1 Common Problems of HV Equipment | 1 |
| 1.2 Interface Relays | 3 |
| 2 High-Voltage Interface RG-series Relays | 9 |
| 2.1 HV Interface Relays for DC Circuits | 9 |
| 2.2 The Impulse Action Device | 19 |
| 2.3 HV RG-series Interfaces for Power Engineering | 22 |
| 2.4 Special RG-relay-Based Devices | 26 |
| 2.4.1 Relay Responding to the Current Change Rate | 26 |
| 2.4.2 Differential RG-relay | 27 |
| 2.4.3 RG-relay-Based Device for Current Measurement in High Potential Circuits | 28 |
| 2.4.4 The Use of Spark-Arresting Circuits for Reed Switches in DC Circuits | 30 |
| 3 High-Voltage Switching Devices | 35 |
| 3.1 HV Relay “Goliath” Series | 35 |
| 3.2 HV Solid-State Switching Devices HVTS Series | 41 |
| 3.3 HV Reed Switch Based Commutation Devices | 47 |
| 3.4 Hybrid Commutation Devices | 49 |
| 3.5 Reliability of the HV Commutation Devices Based on Serially Connected Elements | 58 |

| | | |
|----------|-----------------------------------------------------------------------------------------------------------------------------------|------------|
| 4 | Low-Voltage Switching Devices for High-Voltage Power Supply | 65 |
| 4.1 | Soft-Start Thyristor Contactor | 65 |
| 4.2 | Soft-Start Contactor on IGBT Transistors | 67 |
| 4.3 | Power-Combined Device | 69 |
| 4.4 | Hybrid Power Relay | 71 |
| 4.5 | Hybrid Switch, Based on Anti-Parallel Connected Thyristors (SAPT) | 83 |
| 4.6 | Temperature Influence on SAPT Operation | 93 |
| 4.7 | Hybrid Reed-Transistor Switching Device for DC Circuits | 102 |
| 5 | Applications for Power Engineering | 111 |
| 5.1 | New Relay Protection Technology | 111 |
| 5.2 | Hybrid Over-Current Protection Relay “Quasitron” Series | 113 |
| 5.3 | Arc Protection Device for Switchboard 6 – 24 kV | 121 |
| 5.4 | Automatic Reset Short Circuit Indicator for 6 – 24 kV Bus Bars | 123 |
| 5.5 | High-Voltage Threshold Current Transducer | 125 |
| 5.6 | Single-Phase Ground Faults Protection | 131 |
| 5.7 | Ground Circuit Fault Indicator for Underground HV Cable Network | 134 |
| 5.8 | Current Transformers Protection from Secondary Circuit Disconnection | 139 |
| 5.9 | Protection Against Ferroresonance in Voltage Transformers | 142 |
| 5.10 | HV Indicators for Switchgears and Switchboards | 145 |
| 5.11 | High-Speed Voltage Unbalance Relay | 152 |
| 5.12 | Device for Protection of Electrical Networks with Insulated Neutral from Voltage Spikes, Producing by Commutation Apparatus | 156 |
| 6 | Applications for Powerful Radio-Electronic Equipment | 159 |
| 6.1 | A Special Commutation Device for Unattended Booster Stations | 159 |
| 6.2 | System Protection for Powerful Radar | 165 |
| 6.3 | Protection System for Powerful Industrial Lasers | 173 |
| 7 | High-Voltage Devices for Industrial Applications | 177 |
| 7.1 | Automatic High-Voltage Circuit Breakers | 177 |
| 7.2 | High-Voltage Laboratory Power Supply | 183 |
| 7.3 | Power Relay with Protective Contacts (REPROCON) | 185 |
| 7.4 | The Use of High-Voltage RG-series Relays in Electro-Physical Installations | 188 |
| | Appendix A: Selected Publications by the Author | 191 |
| | Appendix B: Some Types of RG-relays with a Special Characteristics | 201 |

| | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| Contents | ix |
| Appendix C: Environmental Tests of RG-relays for MIL-STD-202 Requirements | 211 |
| Appendix D: Components Recommended for Use in HV Protection Devices | 215 |
| D1 Reed Switches | 216 |
| D2 Solid State Modules | 221 |
| D3 High-Voltage Thyristors | 232 |
| D4 High-Voltage High Power Transistors | 236 |
| D5 Low-Voltage Electromagnetic Relays | 242 |
| D6 Connectors | 265 |
| D7 HV Cables and Cable Assemblies | 269 |
| D8 Capacitors DC/AC | 273 |
| Appendix E: Insulation Materials for Production of RG-relays | 279 |
| Appendix F: Engineering Equations for Calculations of Magnetic Conductivity in Magnetic Circuits and Electrical Fields for Some Forms of Electrodes | 285 |
| <i>Index</i> | <i>291</i> |
