**Subject:** Claim No. 2

May 09, 2020

Attention to Mr. Emmett Dages  
Chief Operating Officer of Taylor & Francis Group  
[Emmett.Dages@taylorandfrancis.com](mailto:Emmett.Dages@taylorandfrancis.com)

Helo, Mr. Dages,

I would like to complete our long correspondence as soon as possible and hand over the documents to the lawyer. This requires a very accurate understanding of the attitude of Taylor & Francis to my claims. Unfortunately, there is still no such clear and precise understanding. Therefore, I want to formulate the attitude of Taylor & Francis to each of my claims separately and ask you whether I understand you correctly.

### **Claim No. 2**

The Taylor & Francis data on books sales and royalty is so inaccurate and confusing that it is impossible to determine how many copies were actually sold

### **Facts:**

- 2.1. The author has two Taylor & Francis official statement reports on the sales of his book "Protection Devices and Systems for High Voltage Applications" in 2008 containing completely different data for the same period and for the same book version.
- 2.2. Copies of these two statement reports was sent to Taylor & Francis.
- 2.3. On the requirement to explain the significant difference in the Taylor & Francis statement reports, the author was requested for additional materials.
- 2.4. The author has no additional materials, except for the statement reports that he receives from Taylor & Francis.

### **Conclusion:**

Taylor & Francis cannot explain the reason for the significant difference in its own statement reports.

### **The confirmation:**

Please confirm very briefly that the above my understanding of the situation is correct. And if it's not true, then what exactly.

Thanks.

Regards,

Dr. Vladimir Gurevich
